PREFACE.

In issuing the thirteenth volume of the WALTHAM AND WATERTOWN DIRECTORY, the publishers take pleasure in acknowledging their indebtedness to the many patrons of the work for their valuable support, which has contributed so much to its compilation and success.

An examination of its pages will show that a large proportion of the business concerns of both places are represented in its advertising department, as well as many of the live Boston houses. An advertisement in the Directory is sure to be criticised and commented upon, not only by the advertisers themselves, but more so by those who are not patrons, and these comments are just what advertisers desire, as it is proof to them that their object has been attained. The Directory is not glanced at and then thrown aside, as is almost every other advertising medium, but it is a continual book of reference in every business house and family in the city it represents, as well as the large number of cities in which it is circulated outside of its home.

A careful inspection of its pages will also show many changes from its previous volumes and much new matter, valuable to all residents.

To all who have, by their courtesy, assisted our agents while canvassing for the information contained in this work, and to our patrons, we return our sincere thanks.

Respectfully,

LITTLEFIELD & RADFORD,

A Directory

must either be correct or misleading. Much the same in an advertisement. We never misrepresent in any of our announcements.

Good CHINA AND GLASS

is what we keep, and sell the same at a fair profit; without which, comes the Sheriff's padlock.

We are the Boston Agents for the celebrated "Libbey" Cut Glass. This trade mark delicately etched on every piece.

FINEST GLASS MADE.

SOLE AGENTS ALSO FOR THE PORCELAIN REFRIGERATORS.

These Refrigerators are not Iron Porcelain Lined, but are lined with Solid China, a radical departure from the ordinary zinc lined, which when stained are impossible to clean.

A CARD.

To the Citizens of Waltham:

Having acquired a franchise for the City of Waltham to construct a telephone plant, we beg to announce that we shall, at the earliest possible moment, be prepared to give to the citizens of Waltham telephone service at reasonable rates. We shall also, as soon as possible, open their lines to the cities in the immediate vicinity. Having acquired rights in the streets of Boston, we shall also be enabled to give to the citizens of Waltham telephonic connections with the City of Boston, of which we are the official telephone company, as we are also of the City of Waltham.

We ask for the cordial and earnest support of the citizens of Waltham, in return for which we shall do our best to please them in every particular. We shall install the very latest equipment with the finest telephonic construction. With good service, low prices and courteous treatment, we expect to merit the good-will of every business man and resident of Waltham.

Very respectfully,

Z. S. HOLBROOK, PRESIDENT.

STREET DIRECTORY.

Giving the location of each street, and showing which other streets and places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Adams street No. 165 comes, you look at Adams and find that Brown street crosses at 157, and Robbins at 175, showing that 165 Adams would come about half way between Brown and Robbins. Upon the discovery of fire, go to the nearest box, open the same, and pull the hook down once only, then let go; listen, if gong in the box strikes; if not, pull again. If you fail the second time, go to the nearest box, and do the same.

Remain at the box, if possible, after giving an alarm, to direct the firemen to the fire. Do not give an alarm for a fire seen at a distance.

Be sure the box is closed before leaving it.

If you remove from your house or place of business, return the key to the Chief Engineer.

Key-holders will bear in mind that their key will be "trapped" when used, and will be returned to them by an engineer.

Citizens are earnestly requested to keep themselves informed as to the location of keys to signal boxes. Signs over each box will give the desired information.

DIRECTIONS FOR SOUNDING AN ALARM.

When a fire is discovered, go to the nearest box to the fire.

A sign over each box gives the location of the keys, with which the citizens should be familiar, thus saving any delay in sounding an alarm.

Open the box, pull the hook all the way down, once only, and let go. If you don't hear any sound from the tapper in the box, pull again. If you fail the second time, go to the next nearest box and do the same. Do not touch any other box if the first one gives the alarm.

After giving an alarm, remain at the box, if possible, to direct the firemen to the fire.

Never sound an alarm for a fire seen at a distance, unless assistance is called for.

Never open the box or touch the hook except in case of fire.

Any one having a key to the signal boxes who should change his place of residence or business, will please return the key promptly to the Chief engineer or the engine house.

SIGNALS.

1—Blow for test at 6.30 a. m. and 12.45 and 6.45 p. m.

1-1—Two blows will be given when the companies at fires have "made up."

11—Blows followed by box number indicate Police Call. One round.

3-2—Signal for no school. Three rounds.

8—Blows out of town signal. One round.
